Welcome Home

Dear Families of the Class of 2026,

We are excited for your arrival on campus to officially begin your experience at the University of Notre Dame! We hope that these next few years will bring about growth for you in both mind and heart.

Welcome Weekend Fall 2022 Detailed Schedule

You and your student can now access a detailed schedule of Welcome Weekend events. We hope these descriptions help you identify the various opportunities and requirements for you and your student throughout your Welcome Weekend experience.

As you can see in the Welcome Weekend schedule, on Saturday, Aug. 20, first-year students must attend the First Lecture Series. These programs are now open and must be completed prior to August 23, 2022.

Today, your student received an email with details on how to complete both of these programs. They are required for all new students, and successful and timely completion of all that we can to support them as a member of our community.

We wish you safe travels to campus, and we look forward to welcoming you home soon!

Emily Orsini

Preparedness training. If your students have questions about the Active Violence Preparedness training, they may contact safety@nd.edu. We are aware of new dangers related to lawsuits in which companies are alleged to have contributed to the development of fentanyl and other opioids. We strongly encourage students to stay informed on the latest developments related to the opioid epidemic.

Building Community the Notre Dame Way

As a University community, we care deeply about preventing all types of harm. Racism, other types of discrimination, harassment, and intercultural misunderstandings may occur in our community, and we are committed to promoting a safe and inclusive environment for all.

Additional Resources

Drugs and alcohol are significant issues among college students and, in this digital age, as well as in person-to-person settings. Some may be addicted, our community is impacted by alcohol and other substance use. We promote the health and wellness of all students, and as a result, drugs are not permitted at Notre Dame. We are aware of new dangers related to lawsuits in which companies are alleged to have contributed to the development of fentanyl and other opioids. We strongly encourage students to stay informed on the latest developments related to the opioid epidemic.
